Description

Chatler Jurp What Woman is a Oriental Spicy fragrance for women.

This fragrance opens in impertinent and insolent way, with spicy accords of pink pepper. Spicy-flirtatious notes are softened by subtle and sweet aroma of black vanilla contributing to warmth and softness of the perfume. Base notes particularly accentuate rum that is characteristic of this edition as well as the last year's edition for men. Rum will seduce and warm the entire composition in a special way, and leave sweet, intoxicating trail on the skin.
