Price	0.99 €
Availability	Out of stock
Delivery within	2-4 working days

Description

Specially designed for fine hair, Dove Advanced Hair Series Oxygen & Moisture Shampoo helps add volume, without weighing hair down.

- Advanced formula leaves hair with up to 95% more volume
- Formulated with Oxyfusion technology, breathes life into fine, flat hair
- Gives limp, flat hair fullness and bounce, with natural volume
- Moisturising formula leaves hair touchably soft and feeling smooth
- Moisturising shampoo that doesn't weigh hair down
- Suitable for daily use

Many of us will do anything to get the appearance of fuller hair. We try different tactics, like blow-drying it upside down or setting it in big rollers, which helps us create the volume our hair craves but not the moisture it needs. But what if you didn't have to choose between volume and moisture for your fine, flat hair? We created a truly advanced formulation: Dove Advanced Hair Series Oxygen & Moisture Shampoo, made with Oxyfusion ingredients, to help give you naturally bouncy hair that's smooth and moisturised.
