Description

Aphrodisiac top notes of ginger and exotic Maninka fruit offer the magnetic pull of the BOSS The Scent signature, while a contrasting heart of precious iris sets a passionate stage. A deeply masculine leather base adds warmth to this inviting fragrance.

WHAT IS BOSS ALIVE PERFUME?

Hugo Boss released Boss Alive perfume in 2020 as a strong feminine scent for the empowered woman. Playful fruitiness leads into sensual woody notes as the fragrance starts with notes of apple, black currant, plum and Madagascar vanilla. The heart notes are thyme and jasmine sambac, and the base is sandalwood, cedar, olive tree and woody notes.

WHAT DOES IT SMELL LIKE?

The scent is like driving down the freeway with the top down while belting out your favorite tunes.
