### Description

At **1perfumery.co.uk**, the **Goddess In The Garden - Natural Soy Candle** offers you a luxurious and eco-friendly way to transform your home into a haven of calm and beauty. This candle, inspired by the captivating scent of **Ariana Grande's God Is A Woman**, infuses your space with an enchanting combination of fruity and floral fragrance notes. Its blend of pure soy wax ensures a cleaner burn that's not only better for the environment but also safer for your health.

Crafted from 100% unmodified, non-GMO soy wax, free from pesticides, herbicides, and toxins, this candle is a natural alternative to traditional paraffin candles. Soy wax, being a renewable resource, burns 90% cleaner, leaving significantly less soot behind and creating a healthier home environment. This makes it perfect for those who are sensitive to allergies, as well as safe to burn around children and pets. The candle is cruelty-free and has not been tested on animals, ensuring its ethical production process.

One of the distinguishing features of this candle is the naturally occurring drops of fragrance oil that may form on its surface. These droplets are a natural reaction between the soy wax and the fragrance essence, highlighting the purity and quality of the ingredients used. The candle's natural wax color, free from any synthetic dyes, adds a simple and elegant aesthetic to any room.

With an impressive burning time of up to 40 hours, the **Goddess In The Garden** candle fills your home with lasting, beautiful scents. Whether you're unwinding after a long day or setting the mood for a relaxing evening, this candle offers a serene, aromatic experience. Treat yourself or gift someone special with a touch of luxury that reflects both style and sustainability.
