What is a tester?

New, unused and undamaged article.

Testers are commonly used in classic perfumeries to allow customers to try a fragrance.

Since testers are primarily used for demonstration purposes, the packaging is not as colorful or classy.

Testers usually come in plain packaging and sometimes without a cap.

If you are buying the perfume for yourself and don't need standard packaging, a tester is a good choice for you. If you want to give the fragrance as a gift, standard packaging is suitable.
