Description

Indulge in the exquisite ambiance crafted by Loris Gardenia and Resin Home Reed Diffuser. This 120 ml masterpiece from 1perfumery.co.uk embodies a sophisticated and harmonious blend, designed to transform your living space into a sanctuary of elegance and tranquility.

Gardenia Resin is an unparalleled olfactory creation that seamlessly melds the most delicate and refined notes. Its unique fragrance is a symphony of sweetness and depth, meticulously balanced to impart a distinctive character to every room. The infusion of white flower oils enhances the composition, imparting a subtle beauty and gentleness that elevates the overall scent experience.

This diffuser does more than just fill your space with a pleasant aroma; it envelops you in an aura of relaxation while accentuating the distinctive taste and style of your interior decor. Whether placed in a living room, bedroom, or office, Loris Gardenia and Resin serves as a testament to your discerning choice for luxury and refinement in home fragrances. Discover the enchanting charm and serene comfort that only this exceptional diffuser can provide, exclusively available at 1perfumery.co.uk.

Loris air freshener in the form of sticks will provide long-lasting freshness in your surroundings. Smelling sticks are not only a air freshener, but also a decorative element. Thanks to modern form, it fits into the interior design.

The sensual smell was closed in an exclusive bottle. It emits a wonderful aroma thanks to the use of fragrance sticks.

An elegant cardboard box with black sticks is a great gift for even the most elegant room.

Fragrance oil was highly too perfumed with an intense and long-term scent. Depending on the humidity of air and temperatures, it stays from 3-6 weeks.

How to use:

Open the Loris perfume packaging. Pull the casing placed in the nut. Remove the bottle from the packaging. Remove the plastic nut, pull it out. Turn the chic black cover to the bottle. Place bamboo sticks in a flakon. Reversing sticks upside down every two days provides better distribution of the aroma. You can reduce the number of sticks to customize the intensity of the fragrance.
