LOU DE PRE Golden Safran – Bold Sophistication for the Modern Gentleman

Created for men who command presence without saying a word, this fragrance is a masterfully blended symphony of spice, wood, and depth. It's more than a scent—it's a signature.

A Fragrance That Defines Power and Elegance

From the very first spray, Golden Safran strikes with a burst of exotic saffron, layered with fresh nutmeg and warming cinnamon. As the scent evolves, a heart of aromatic herbs and fine lavender unveils a touch of refinement. The dry-down reveals a masculine base of amber, vetiver, and smooth woods that lingers with magnetic strength and irresistible appeal.
