### Description

**The Story Of Love** is a floral fragrance for women.

The Story Of Love Eau de Parfum tells a love story with delicate floral scents that is actually only possible in romantic Paris at night.

The floral romance opens with invigorating notes of bergamot, lemon, grapefruit and neroli. This is immediately followed by the enchanting heart of the fragrance, which plays with notes of rose, orange blossom and jasmine. These are soon joined by juicy fruit. The fragrance is based on a base of warming cedar and cashmere wood with musk and patchouli, which give the composition its sensuality and depth.
